

Probe Guard Fryer INSTRUCTION MANUAL

TOOL(S) NEEDED • Phillips screwdriver

INSTRUCTIONS:

1. **DANGER:** Turn off electrical power, disconnect electrical power supply, drain shortening from fryer and allow fryer to cool. If fryer is electrically "hard wired," **CIRCUIT BREAKER MUST BE OFF.**
2. Position probe guards as shown in **Figure 1** below.
3. Attach the guards to the top two rows of heaters (**see Figure 2**).
