

# Installation of Top Supports - PS2344

## INSTRUCTION MANUAL

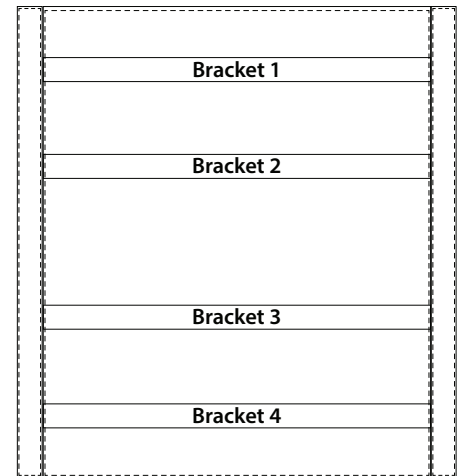

- TOOL(S) NEEDED:**
- Phillips head screwdriver
  - 3/8" Nut driver

**KIT CONTENTS:**

- Support brackets (4)
- Carriage bolts (8)
- Carriage bolt nuts (8)

**INSTRUCTIONS:**

1. Disconnect appliance from power supply or turn off circuit breaker.
2. Remove six screws from top and remove top. Save screws for reuse.
3. Install support brackets using carriage bolts and nuts supplied in kit. The brackets can be installed with the side flanges facing up so that it is easier to access the nuts for tightening. The carriage bolts should be placed into the square holes in the upper sides of the interior top.
4. Reassemble appliance top, and reconnect power to appliance.
