

U.S. Winston Trade-up/Trade-in Program

Objective:

Create and implement a trade-up program for Winston equipment that increases sales to new customers, removes competitive (as well as older Winston) equipment from the field and supports loyal customers who are currently using older Winston equipment.

Goals:

- Create opportunities and sales for Winston rep groups
- Increase Winston product awareness within all market segments
- Decrease duration of average sales cycle
- Decrease usage of competitive equipment within all market segments

Rep Tactics:

1. Create program interest through emails, social media, and/or tradeshows.
2. Focus on markets applicable to the models offered with the program.
3. Identify opportunities for the models offered with the program.
4. Create awareness with preferred dealers in your territory.
5. Maximum discount of any sale attached to trade-up is 50/15 (unless approved by Winston Regional Sales Manager).
6. Standard commission rates per Winston sales policy apply to net sales price after rebate.

Program Details:

Customer focus: Culinary, Schools, Food Stores, and Chains

Trade-in Allowances:

<u>Type of Equipment</u>	<u>Rebate</u>	<u>Winston Model Purchased</u>

Retherm Ovens (stacked pair)	\$1,000	CAT507/07, RTV7-05UV-ST, RTV5-05UV-ST
Cook & Holds (full sized)	\$1,000	CAC522, CA8522, CHV7-14UV, CHV5-14UV
Cook & Holds (half sized)	\$750	CAC503, CAC507, CAC509, CA8509, CHV7-04HP, CHV7-04UV, CHV7-05UV, CHV5-04HP, CHV5-04UV, CHV5-05UV
Cook & Holds (stacked pair)	\$1,000	CAC507/07 CHV7-05UV-ST, CHV5-05UV-ST
Low Pressure Fryers (4–6 Head)	\$1,000	LP46, LP56
Open Fryers (4–6 Head)	\$500	OF49, OF59

If equipment submitted for trade is a Winston model, rebate will include an additional \$250.

Trade Up Procedures

1. One form per trade-up related purchase order is required.
2. Winston sales rep identifies and qualifies trade-up opportunity with end-user and calculates rebate amount. Any existing piece of equipment to be considered for the trade up must be a similar piece of equipment (holding cabinet for holding cabinet, etc.) unless approved by Winston Sales Administration. It is allowable to trade up a cooking unit for a retherm oven or cook & hold.
3. Winston sales rep qualifies the trade-up equipment and works with the customer to complete the rebate form. All form fields must be completed and a photo of the unit or serial tag must be submitted with the form. Loyalty rebates submitted without all requested information will result in forfeiture of \$250 rebate from rebate total.
4. The rep quotes the appropriate dealer on the equipment (discount not to exceed 50/15 from current Winston list price unless pre-approved by Winston Regional Sales Manager) and coordinates quotation to end-user.
5. The appropriate rep receives the purchase order from the dealer and faxes to the factory for processing.
6. Winston requires that old Winston fryers be returned to the factory as part of the trade-in, unless proof is submitted that the fryer has been disabled or destroyed. Email Insidesales@winstonind.com for details and instructions on fryer returns.
7. Winston reserves the right to disapprove rebate applications. If there are any discrepancies in the rebate form, the rep will be notified immediately.
8. The new equipment order is entered, and the order is scheduled for assembly and shipment. The order confirmation will be sent to the rep.
9. Winston equipment is delivered, received, and installed according to purchase details. The Winston sales representative performs training on the unit.
10. Rebate forms must be received no later than three calendar months from the invoice date (of the replacement order).
11. Winston Accounting Department will issue the trade-up rebate after receipt of payment from the applicable dealer of the invoice for the trade-up equipment. Allow 6-8 weeks from receipt by Winston of invoice payment from the applicable dealer for issuance of trade-up payment.
