

Don't Retire It. Improve It!

In early 2023, Pizza Hut Corporate and Winston launched the new CVap® HOV3-14UV Hot Hold Cabinet for all locations. If you have a legacy HA4522Z you are not obligated to replace it.

For a fraction of the cost of a new cabinet, you can upgrade your existing cabinet to newest SOP without having to replace the entire cabinet. A controller change will provide all the SOP functionality that you need.

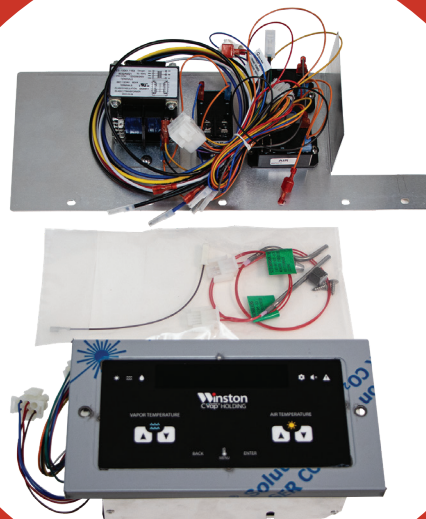

You do have options! Don't get left behind!
