

HA4002 CVAP® HOLDING CABINET

EXCLUSIVE TECHNOLOGY

Exclusive Controlled Vapor technology (U.S. patent # 5,494,690) establishes that the water vapor content in the cabinet is the same as that of the food. This unique process controls moisture evaporation and saturation, so crisp foods stay crisp, and moist foods stay moist.

EASY-TO-USE CONTROLS

Electronic differential controls are easy to understand and reliable. Never requires field calibration.

FOOD TEMP DIAL allows precise control of food temperature from 90 to 180° F (32 to 82° C).

FOOD TEXTURE DIAL maintains just-cooked texture with settings labeled moist, soft moist, firm moist, and crisp.

No guesswork required.

DURABLE

Built to last with quality craftsmanship, high grade stainless steel construction and full insulation on top, sides and doors. Compact to fit under counters to save floor space. Ideal for ADA under counter size requirements.

BETTER CONTROL OF FOOD QUALITY

Features full perimeter door gaskets, magnetic door handle, lift-off door, removable side racks, and digital readout for water temperature.

INDUSTRY COMPLIANT

CVap equipment complies with domestic and international requirements such as UL, C-UL, UL Sanitation, CE, MEA, and others.
